

THESIM

Towards Harmonised European Statistics on International Migration

Migration has become a high priority for European policy
There is an urgent need for better statistics on **MIGRATION** and **ASYLUM**

TO IMPROVE THE SITUATION

a proposal for a **Regulation** on “Community statistics on migration and international protection” has been adopted by the Commission in September 2005

IN TERMS OF

AVAILABILITY

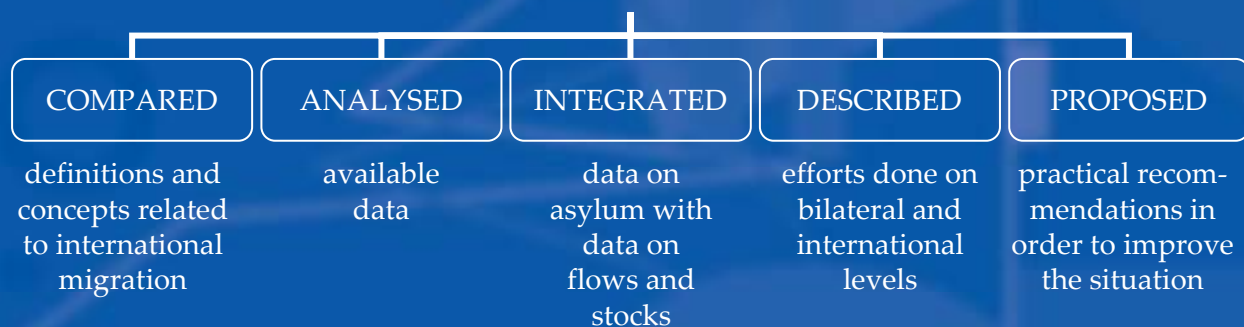

REALIBILITY

COMPARABILITY

THE AIMS OF THESIM WERE TO

- 1° improve the statistical data collection on international migration and international protection
- 2° support the implementation of this regulation

IN THIS PERSPECTIVE, THESIM HAS

THESIM TEAM

Belgium: GéDAP (Groupe d'étude de démographie appliquée) – Michel Poulain

Austria: ICMPD (International Centre for Migration Policy Development) – Michael Jandl

Estonia: Anne Herm

France: INED – Xavier Thierry
