

CALL FOR RESEARCH PROJECT IN MEDICO-SURGICAL CARDIOLOGY **2012**

Brussels, September 20, 2011

Dear Professor, Dear Doctor,

The Foundation for Cardiac Surgery (Fonds pour la Chirurgie Cardiaque - Fonds voor Hartchirurgie) strives to promote progress in surgical and/or medical cardiology by dedicating sponsorship resources to finance research projects in this domain.

Like every year, the Foundation for Cardiac Surgery is launching its call for projects.

Interested researchers must obligatorily belong to one of the country's University institutions. They can apply for the Foundation's support by presenting their application file before **February 10, 2012** at the latest.

The documents must be written in English, and will include:

- a brief presentation of the intended research (strictly no more than one page)
- if there are, related references of articles published by the author(s)
- a short outline of the budget required by the project

The application file will be sent to the Foundation exclusively by electronic mail to eliane.fourre@hart-chirurgie-cardiaque.org. They will be examined by the Foundation's Scientific Council. Selection will be ended for **March 15, 2012** and the authors will be immediately informed.

Please be kind to forward this call to concerned research services.

For any additional information, please contact Eliane Fourné at 02 644 35 44.

Best regards,

Pr Georges Primo,
President
