Teacher(s) :	Nyssens Marthe ;
Language :	Français
Place of the course	Louvain-la-Neuve
Main themes :	<p>First, we will develop conceptual clarifications around concepts such as non-profit sector, social economy, third-sector ... Then, the course develops the socio-economic frameworks explaining the respective roles of public, for profit and non profit sectors in the provision of quasi-collective goods. Finally, the course covers various public policies (work integration, social services ...) governing the provision of these quasi-collective goods. These public policies are placed in a comparative perspective of the different European welfare states models. We systematically refer to the Belgian and European debates around the place of the third sector and its challenges.</p>
Aims :	<p>The objective of this course is to analyze non -profit (third sector) organizations. The goal is to understand their place within the economy besides the for profit sector and public authorities. At the end of this course, students will have an overview of socio-economic grids of analysis of the third sector and should be able to mobilize them in the analysis of a specific third sector organization.</p> <p><i>The contribution of this Teaching Unit to the development and command of the skills and learning outcomes of the programme(s) can be accessed at the end of this sheet, in the section entitled "Programmes/courses offering this Teaching Unit".</i></p>
