## SPOL2M1 - Admission

***For the specific conditions of this program : refer to the French version***

*General and specific admission requirements for this program must be satisfied at the time of enrolling at the university..*

## SPOL2M1 - Information

### Learning outcomes

---

This Master is designed to build on the initial foundations of a political science training by consolidating knowledge of the three main fields of the subject : political science/comparative politics, international relations and public policy. With this in mind, the programme :

- offers a series of courses as well as a seminar which build on what has already been covered at undergraduate level in the main areas of political science ;
- allows students to choose both courses with different perspectives (e.g. political science/comparative politics, international relations and public administration) and a first introduction to 'area studies' ;
- allows students to produce a final piece of work supported by innovative teaching methods .

### Teaching method

---

o Methods which reflect the interdisciplinary nature of the course :

there is interdisciplinarity in both the courses on the different fields of political science as well as the area studies

o Variety of teaching strategies (including e-learning) :

- Most of the teaching staff are familiar with new multi-media technology and innovations introduced by the University Teaching Institute (l'Institut de pédagogie universitaire) . The overall rhythm and workload of the programme is carefully coordinated each year.

- The seminars are primarily designed to help students with the methodological structure of their final piece of work.

o Different learning situations :

- the seminars bring together cross-disciplinary elements. The tutoring system helps students to combine the different subjects in order to produce their dissertation.

### Evaluation

---

It is up to each member of the teaching staff to decide on the most appropriate method(s) of assessment according to the objectives of the course : oral or written examinations, work to be done throughout the year (e.g. reviews of literature, case studies or essays) or exercises.

### Mobility and/or Internationalisation outlook

---

Students are able to take advantage of various international elements of the course :

- Each year, UCL students can attend lectures given by the Chair of Political, Administrative and International Reform. Given by internationally renowned researchers, these lectures are given in French or English ;
- area studies courses.

### Possible trainings at the end of the programme

---

120 credit Masters:

- 120 credit Master 120 in Political Science (general)
- 120 credit Master 120 in Political Science (international relations)
- 120 credit Master 120 in Public Administration

Students who successfully complete the programme will be able to enter the world of work. During the first semester, they may also decide to take advantage of the opportunity open to them to go on to the 120 credit Master in Political Science (either general or international relations) or the 120 credit Master in Public Administration .

## SPOL2M1 - Detailed programme

### Programme structure

Students must follow all the core subjects totalling 45 credits (15 of which are for the dissertation) and make up the rest of their programme with optional courses focused on regional subjects (e.g. Belgium, Europe or Asia) and language classes to reach the required 60 credits.

The core subjects concentrate on the different fields in political science (comparative politics, international relations, European studies, public policy and administration).
