## DREU2MC - Introduction

### Introduction

## DREU2MC - Teaching profile

### Learning outcomes

The Advanced Master in European law is designed to provide students who have completed their studies in law with a specialized high level training in European law, covering both the European Community law as well as European Union law, in their material and institutional aspects. In line with the tradition established for many years at Louvain, this specialized training in European law is also firmly anchored in international law.

### Programme structure

The Advanced Master in European law is a programme lasting one academic year (60 credits) made up of three main groups of activities : seven compulsory courses (35 credits), two optional subjects chosen from a wide range of option courses (10 credits) and a final assignment done in the context of a special seminar on international law and lectures on current issues (15 credits). These sessions, as well as certain other compulsory courses and some optional subjects, are reserved for students taking the Advanced Master.

### The programme's courses and learning outcomes

---

For each UCL training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"

The document is available by clicking [this link](#) after being authenticated with UCL account.

## DREU2MC - Information

### Admission

---

*In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail*

Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.

The admission requirements must be met prior to enrolment in the University.

#### General requirements

Subject to the general requirements laid down by the academic authorities, admission to the specialized Master's degree programme will be granted to students who fulfil the entry requirements for studies leading to the award of a Master's (second-cycle) degree and who hold a second-cycle diploma, degree, certificate or other qualification issued within or outside the French Community of Belgium, or whose prior learning or experience has been accredited by the Examination Board as being equivalent to at least 300 credits.

---

#### Specific Admission Requirements

The special admission conditions for this programme are as follows :

Students should have gained a Master's degree in Law, or a foreign degree in law which is considered equivalent, with a high grade. The Advanced Master in European Law is reserved for lawyers.

Application forms should be submitted in the usual way, with the necessary documents; they are considered by the President and the Secretary of the Advanced Master panel. Students who satisfy academic entry requirements are informed by email straight away.

---

#### Accessible to adults

As far as possible, the courses for the Advanced Master are grouped together over several weekdays, to make it possible for mature students to attend. In the past, students with professional responsibilities such as lawyers, diplomats serving in Brussels and European officials, have been allowed to stagger their courses: this will continue according to criteria set by the university.

## Teaching method

---

A certain number of courses (prefixed MCEU) are specific to the Advanced Master in European Law and the Advanced Master in International law: this gives added reinforcement to the way in which international and European subjects are brought together. This is a long established Louvain tradition.

The final assignment consists of a special seminar on European law throughout the academic year for 2 hours per week starting from the 7th week of classes, as well as a series of lectures on current issues.

The specialized seminar consists of interactive sessions in which students are required to make presentations on specialized points of international public and private law. It mainly deals with recent jurisprudence and other legal documents which students are required to comment on. Each student is assigned different presentations based on the reading that all students have to do. The final written assignment is an overview of these presentations and a critical dissertation relating to the lectures on current issues.

Experience has shown that this way of working is more helpful and effective for students, particularly those from foreign countries, than the solitary production of a traditional 'dissertation', possibly in another language.

## Evaluation

---

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

The final assessment is continuously assessed ; there is also an assessment of the written overview and the dissertation. Apart from this, assessment is through written or oral examinations.

## Mobility and/or Internationalisation outlook

---

Par nature, le programme est destiné à des étudiants internationaux et est habituellement suivi par une majorité d'étudiants venant d'universités étrangères.

Le programme n'ouvre pas de possibilités de mobilité dans le cadre des échanges internationaux.

## Possible trainings at the end of the programme

---

Le Master complémentaire en droit européen s'inscrit dans la suite du Master en droit; il est accessible aux titulaires d'une formation en sciences juridiques ou d'une autre formation à contenu juridique marqué.
