PNEU2MC - Introduction

Introduction

PNEU2MC - Teaching profile

Learning outcomes

This complementary master's programme aims to prepare doctors to become officially recognised holders of the specific professional title of Specialist Doctor in Pneumology (Ministerial Decree of 09.03.1979, published on 15.03.1979, modified by the Ministerial Decree of 22.04.2002, published on 25.07.2002).

Programme structure

The training course includes full time apprenticeships in recognised services and teaching centres. It lasts for at least six years, full-time, including three years of foundation studies in internal medicine and a higher training in Pneumology of at least three years. The apprenticeship project established by the university promoter must be approved by the ministerial validation committee for the speciality. These periods of practical training include being on call.

PNEU2MC Detailed programme

Programme by subject

Parallel to the practical training, the specialist candidate will follow a university training programme organised as follows :

part - Foundation studies

Three years, full time, consisting of :

- Theoretical courses
- Seminars
- A period of supervised hospital training

The theoretical sessions of the first two years form part of the specific university training programme (FUS, in French).

part - Foundation studies

Three years, full-time, consisting of :

- Theoretical courses : These courses are given in the context of the inter-university "MC", grouping 7 faculties of medicine.
- Seminars
- A period of supervised hospital training

In addition, 15 hours of optional courses to be chosen from among :

- INTR2291 Exploration fonctionnelle cardiaque[15h] (in French) Claude Hanet (coord.), Agnès Pasquet, Erwin Schroeder
- INTR2292 Pulmonary function testing[15h] (in French) Giuseppe Liistro, Eric Marchand
- MDTR3180 Evaluation d'incapacité de travail et invalidités[15h] (in French) Frédéric Bonbled
- PNEU2110 Supplements of pneumology[15h] (in French) Yves Sibille, Olivier Vandenplas
- PNEU2120 Clinical allergy[15h] (in French) Yves Sibille, Olivier Vandenplas

The programme's courses and learning outcomes

For each UCL training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"

The document is available by clicking [this link](#) after being authenticated with UCL account.

PNEU2MC - Information

Admission

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail

Decree of 7 November 2013 defining the landscape of higher education and the academic organization of studies.

The admission requirements must be met prior to enrolment in the University.

General requirements

Subject to the general requirements laid down by the academic authorities, admission to the specialized Master's degree programme will be granted to students who fulfil the entry requirements for studies leading to the award of a Master's (second-cycle) degree and who hold a second-cycle diploma, degree, certificate or other qualification issued within or outside the French Community of Belgium, or whose prior learning or experience has been accredited by the Examination Board as being equivalent to at least 300 credits.

Specific Admission Requirements

Admission conditions

- The applicant must hold the degree title of Doctor in Medecine or be a Doctor from a member country of the European Union authorising medical practice in Belgium.
- The applicant must be in possession of a document attesting that, at the end of the selection exams, he was retained as a specialist candidate in Pneumonology, in a Belgian medical faculty.

The juridical context and practical procedures regarding these selection tests can be obtained from the secretary's office. Degree holders from outside the European Union are only allowed to register on the programme in the context of procuring a university certificate for partially specialised training for the duration of two years (if they are in the process of doing a specialisation in their country of origin) or for an in-depth specialised training course for the duration of one year (if they are already recognised as specialists in their own country).

The Royal Decree of 30.05.2002, relating to the planning of the medical offer for the public, published on 14.06.2002, applies to those candidates wishing to obtain the title of Specialist Doctor in Pneumonology (those candidates are thus counted among the general practitioner candidates or specialists in the context of the numerus clausus).

Admission procedures

Applications for admission must be addressed to the academic supervisor. The organisation of the entrance selection tests is arranged in accordance with the calendar and the general examination rules and regulations.

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Semestrial clinical evaluations : these evaluations are established (in writing) by the practical training course supervisor of each candidate and aim to assess different items. The evaluations of all the candidates are reviewed during the two semestrial meetings of the ensemble of the practical training supervisors.

First part

At the end of these three years of training, each candidate will be evaluated during the course of an interview aimed at testing his general knowledge acquired in Internal Medicine. Further to the application of the Royal Decree of 16 March, 1999, at the end of the first two years of training, the candidate will receive an attestation proving that he has successfully accomplished a specific university training course.

Second part

At the end of these three years of training, each candidate will be evaluated during the course of an interview aimed at testing the in-depth knowledge acquired in Pneumology. The writing of a thesis(20-25 pages) on a subject of Pneumology. The instruction leaflet for the thesis is available at the secretary's office of the service. Publication of an article. Upon fulfilment of the above-described training requirements, the teaching committee will award the academic title in Pneumology.

This title does not replace official recognition by the ministerial validation committee. It attests the successful completion of an academic and scientific study programme in the context of a specialised training programme leading to this validation.
