COURSE PREREQUISITES

A document entitled [en-prerequis-2016-min-lhuso100i.pdf](#) specifies the activities (course units - CU) with one or more pre-requisite(s) within the study programme, that is the CU whose learning outcomes must have been certified and for which the credits must have been granted by the jury before the student is authorised to sign up for that activity.

These activities are identified in the study programme: their title is followed by a yellow square.

As the prerequisites are a requirement of enrolment, there are none within a year of a course.

The prerequisites are defined for the CUs for different years and therefore influence the order in which the student can enrol in the programme's CUs.

In addition, when the panel validates a student's individual programme at the beginning of the year, it ensures the consistency of the individual programme:

- It can change a prerequisite into a corequisite within a single year (to allow studies to be continued with an adequate annual load);
- It can require the student to combine enrolment in two separate CUs it considers necessary for educational purposes.

For more information, please consult [regulation of studies and exams](#).

THE PROGRAMME'S COURSES AND LEARNING OUTCOMES

For each UCL training programme, a [reference framework of learning outcomes](#) specifies the competences expected of every graduate on completion of the programme. You can see the contribution of each teaching unit to the programme's reference framework of learning outcomes in the document "In which teaching units are the competences and learning outcomes in the programme's reference framework developed and mastered by the student?"

The document is available by clicking [this link](#) after being authenticated with UCL account.

Admission

All baccalaureate students (apart from SOCA1BA and SPOL1BA students) are admitted on to the course of training. The minor in human and social sciences is recommended to students who are looking to 'add something' to their training in human science, who want to 'get a feel for' another subject, and are seeking to enrich their baccalaureate course by adding a rigorous approach to current political phenomena and issues.

Teaching method

Evaluation

The evaluation methods comply with the [regulations concerning studies and exams](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading "Learning outcomes evaluation method".

Possible trainings at the end of the programme

- Direct access to the Master's in Labour Sciences, the Master's in Human Resources and the Master's in Population and Development for bachelors in political science and bachelors in sociology and anthropology.

- Access on conditions for other bachelors (with the agreement of the person in charge of the program) : consideration will be given to all of the courses the student has taken as part of his/her baccalaureate, and, should some courses not have been taken, they can be added to the Master's in Labour science, master's in human resources and the master's in population and development science programs. (maximum 15 credits).
