

5.00 credits	15.0 h + 30.0 h	Q2
--------------	-----------------	----

Teacher(s)	Pasquier Christine ;
Language :	French
Place of the course	Louvain-la-Neuve
Main themes	<ul style="list-style-type: none"> • Brief history, definitions and types of quality management in translation, including revision and quality control. • Quality management standards. • Theories, strategies, techniques and criteria for quality management in translation. • Tools to assist with revision and quality control. • Role and skills of the reviser, reviser-revised relationship, place of the reviser within professional relationships in the management of a translation project.
Learning outcomes	<p>At the end of this learning unit, the student is able to : Contribution of teaching unit to learning outcomes assigned to programme</p> <p>This unit contributes to the acquisition and development of the following learning outcomes, as assigned to the Master's degree in translation:</p> <ul style="list-style-type: none"> • check, review, revise and evaluate their own work and that of others according to standard or work-specific quality objectives and assess the appropriateness of using tools for the work at hand (11 – Translation); • understand and implement quality control strategies, using appropriate tools and techniques (12 – Translation); • understand and implement the standards applicable to the provision of a language service (32 – Service Provision); • apply the quality management and quality assurance procedures required to meet pre-defined quality standards and manage client feedback and complaints (33 – Service Provision). <p>Specific learning outcomes on completion of teaching unit</p> <p>On completing this unit the student is able to:</p> <ul style="list-style-type: none"> • demonstrate knowledge and command of the concepts and techniques involved in revision and quality management (metalanguage of translation / revision); • distinguish between a translation that meets the required standard of quality and one that requires revision; • determine that a given translation is not of sufficient quality to merit editing; • identify in a human translation the nature of the elements to edit in line with the pertaining criteria or parameters of quality control, and the different levels of editing involved; • identify the most appropriate translation theory reference sources in implementing the checks and/or corrections necessary in a translation which is to be revised; • demonstrate command of the specific CAT tools to use in revision and quality management; • distinguish between a proactive quality management strategy and a reactive quality management strategy; • establish and implement a continuous quality improvement process within a translation agency.

Evaluation methods	<p>The final evaluation of the first (January) and second (August/September) sessions consists of a written exam focused on the theoretical aspects of revision and post-editing (one third of the overall rating), and practical aspects of revision (one third of the overall rating) and practical aspects of post-editing (one third of the overall rating),</p> <p>In all three parts of the overall evaluation, be it the theory or the practical aspects of revision and post-editing, the student will be able to demonstrate a perfect command of the metalanguage (terms and definitions) of revision and post-editing.</p> <p>Unless otherwise specified on <i>Moodle</i> as from the beginning of the academic period, student obtaining a failure mark for the overall evaluation in the first session (June) will have to retake all three parts of the evaluation in the second session (August-September).</p> <p>A student obtaining a failure mark for the overall evaluation in the second session (August-September) will have to retake all three parts of the evaluation during the following academic year.</p> <p><i>As a "revision" task applied to a text produced by machine translation (MT), post-editing is based on the use of machine translation (MT) software. Therefore, the use of MT software or generative artificial intelligence (AI) will be allowed only under the strict guidance of - and according the specifications exposed by - the teacher in charge of the post-editing part of the course.</i></p> <p><i>Unless explicitly specified otherwise, the use of machine translation software or generative artificial intelligence (AI) is STRICTLY prohibited, whether in the context of practical exercises or examinations. In any case, generative artificial intelligences (AI) must be used responsibly and in accordance with the practices of academic and scientific integrity and the specifications of the exercise or examination. Scientific integrity meaning always citing all sources used, the use of AI must be mentioned in all instances. In any case, all sources used will be appropriately cited and referenced.</i></p> <p><i>Any use of AI in the frame of tasks in which AI is explicitly forbidden will be automatically considered a case of cheating.</i></p>
Teaching methods	<p>In-situ lectures and training sessions.</p> <ul style="list-style-type: none"> • Lectures presenting the theoretical aspects and practical examples of revision and post-editing; • Training material and documents (theory and exercises, bibliography and recommended reading list, vocabulary of revision and post-editing) available on the e-learning platform. • In-situ training sessions
Content	<p>Theory [lectures] and practice [exercise sessions] related to revision and post-editing.</p> <p>Both subjects are approached from an empirical questioning method:</p> <ul style="list-style-type: none"> - What is revision/post-editing? Brief history, definitions, typology, etc. - Why revise/post-edit? Quality standards, etc. - What to revise/post-edit? Human translation vs. machine translation, document formats, etc. - How to revise/post-edit? Theories, schools of thought, strategies, methods and techniques, procedures, criteria and parameters, revision/post-editing tools, etc., with examples and exercises. - Who revises/post-edits? The role and skills of the reviser/post-editor, the reviser-revised relationship, the place of the reviser within the professional relationships involved in managing a translation project, etc. <p>Exchanges of experience: meeting the world of professional revision and post-editing</p>

Other infos	<p>IMPORTANT :</p> <p>Given the specific nature of the subject of this course, namely the revision and post-editing of texts written or translated in French, this course requires students to have an excellent command of and fine expertise in the French language. A C2 level of the European Framework of Reference for Languages (CEFR) is therefore required in French.</p>
