THEA2M - Introduction

Introduction

Introduction

From 2025-26, the didactic final year is no longer offered. Students who were enrolled before 2025 may re-enroll and have two years to complete the program (2025-26 and 2026-27). Students re-enrolling in 2026-27 who have not obtained their diploma by the end of 2026-27 will have the academic year 2027-28 to validate the missing teaching units. If the diploma is not obtained in 2027-28, students will continue their studies in a Section 4 Master's degree in teaching.

More information on the transition program: <https://uclouvain.be/fr/facultes/fial/elal/programmes-de-transition.html>

The study programme for the Master's degree is organised around three main elements:

- dialogue on the Western theatrical tradition;
- dialogue on the academic disciplines which analyse theatrical creation;
- dialogue on theatrical practice, in the form of workshops and work placements in a professional environment.

Your profile

You

- are passionate about the theatre and everything related to the performing arts;
- wish, without being an actor, to join a profession related to theatrical creation : playwright, theatre critic, public relations officer, organiser, teacher, manager, theatre director;
- are looking for a university training which will bring enrichment, whether you are an actor, producer, designers, teacher of French and theatre, psychologist, occupational therapist or researcher, etc.

Your programme

The Master's degree offers you

- a complete overview of the phenomenon that is theatre;
- knowledge and skills in the critical analysis of theatrical creation and the performing arts;
- the ability to use research tools and fundamental concepts to help you, in a personal way, in what you do now or will do in the future;
- theoretical training accompanied by practical work, workshops and work placements supervised in a professional environment;
- a pluridisciplinary approach.

THEA2M - Teaching profile

Learning outcomes

Students on the [Master \[120\] in Performing Arts](#) prepare themselves for the challenge of becoming an expert actor in the field of theatre studies, with an approach which takes the whole phenomenon of theatre into account. At the end of their training, the students will be able to master and employ knowledge and critical analysis skills in respect of theatrical creation and performing arts, in order to independently and relevantly approach their current or future practice and become an active cultural actor in the world of professional theatre.

In order to achieve that, students will master a broad range of knowledge relating to theory and practice, tools, concepts and methods in various disciplines required in order to understand problems in the field of theatre studies and performing arts.

Students will employ their knowledge and skills in order to understand, analyse and respond to situations/problems in all areas of and in respect of all the complexities of the field of performing arts:

- in accordance with an academic approach: a scientific approach grounded upon reflection and a rigorous methodology;
- in accordance with a multidisciplinary approach ensuring the adoption of a critical and nuanced posture regarding the contributions made by different disciplines;
- in accordance with questioning which takes the institutional, historical and cultural specifics of performing arts into account;
- by appropriately and compatibly communicating and interacting with the different actors involved in a given situation;
- by proposing action plans in response to a situation or problem.

Students will question, enrich and consolidate their professional practice by subjecting the latter to criticism. Students will integrate a continuous developmental logic which allows them to perform as professionals demonstrating high-level expertise and flexibility, and be able to adapt and develop positively within the context of their work.

On successful completion of this programme, each student is able to :

1. Master and employ interdisciplinary theoretical and practical knowledge in the field of theatre studies.
 - 1.1. Understand the aesthetic theatrical concepts and acquire an in-depth knowledge of the phenomenon of theatre;
 - 1.2. Be able to situate the phenomenon of theatre amongst other arts and, more widely, other discourse;
 - 1.3. Employ multidisciplinary knowledge which is essential to the theatre and to culture in general, such as the history of staging, literary analysis, the dramaturgical study of theatrical texts, the sociology of the theatre, theatrical legislation;
 - 1.5. Apply the knowledge and practices linked to experiences in the theatrical sector and culture;
 - 1.6. Situate theatrical productions (text and/or staged) in history and interpret them from the point of view of history, dramaturgy, stagecraft, text, sociology, law and themes;
 - 1.7. Develop and implement appropriate methods for devising and handling a theatre studies problem, formulate questions and hypotheses linked to the analysis of performances, dramaturgy and other multidisciplinary fields.
2. Devise academic and practical methodologies and apply knowledge in the field of research and the socio-professional, cultural milieu.
 - 2.1. Realize a research assignment implementing a rigorously scientific methodological and critical approach , in accordance with an interdisciplinary method, in order to go deeper into a philosophical research question;
 - 2.2. Carry out a review of the literature on a complex problem in the field of theatre studies;
 - 2.3. Contribute to the creation of knowledge which is useful to scientific research in the field of theatre studies;
 - 2.4. Employ and use theoretical and practical knowledge for artistic and/or logistical purposes (e.g.: staging, staging assistance, scenography, dramaturgy, artistic collaboration, teaching dramatic arts);
 - 2.5. Distinguish the key aspects from the less important aspects relating to a problem connected with the world of theatre or culture in order to define and delimit that problem's field of action;
 - 2.6. Communicate and transfer knowledge in theatre studies in writing or orally and in a way which has been adapted for the target audience;
 - 2.7. Demonstrate an ability to deal with conceptual abstraction in, summarize and formalise an analysis.
3. Act and think as a cultural and critical actor.
 - 3.1. Devise scientific, artistic or logistical solutions which are appropriate and innovative and allow for the evolution or contributions to the evolution of reflection, aesthetic or strategic production choices and development;
 - 3.2. Test and analyse situations in respect to their academic, artistic and/or institutional context, being able to adapt them if necessary;
 - 3.3. Deepen, develop and share a humanist, multicultural and multidisciplinary idea of theatre which is open to the world.
4. Develop the human and professional qualities required in the world of culture.
 - 4.1. Work in the theatrical and culture sector in general and be able to identify their profession in accordance with their path, skills and desires: dramaturgy, academia, communication manager, theatrical director, critic, administrator, manager, stage director, assistant director, dramatic arts teacher, scenographer, artistic collaborator;
 - 4.2. Collaborate in a team, listen, adapt and integrate into the theatrical and cultural structures, appreciate the organisational challenges, identify actors, know where to implement and offer solutions;
 - 4.3. Have assimilated the importance of proactively establishing and cultivating networks with actors and cultural institutions;
 - 4.4. Devise a professional path incorporating continuous development on the basis of their individual plan and skills.
5. Professional Focus: Occupations and practices in the theatre: deepen the theoretical and practical knowledge acquired in the core curriculum activities. In addition to a practical supplement, students will acquire knowledge in the fields of art, literature and cultural management.

Programme structure

The programme is made up of:

- core courses (75 credits), made up of one dissertation and courses;
- one focus (30 credits);

PROFESSIONAL FOCUS : OCCUPATIONS AND PRACTICES IN THE THEATRE [30.0]

This specialization should allow students to build on the theoretical and practical knowledge they gained in the core curriculum activities. In addition to a further practical module, they are given the opportunity to learn about art, literature and cultural management, since people who work in the theatre nowadays are often required to wear several hats: director, dramatist, manager, set designer, communications officer and writer. In addition to their professional focus, the student will complete professional placements which will be suggested in the optional courses.

INTERNATIONAL MOBILITY

As part of their studies, students are encouraged to :

- spend a semester (30 credits) studying at one of our many partner universities. Information on these programs can be found at <https://www.uclouvain.be/fr/facultes/fial/etudiant-fial-en-echange>
- take one or more courses (maximum 3) offered by FIAL partners abroad. This internationalization of training takes place :
 - either through mobility (stay at a partner university),
 - or by taking these courses online,
 - or by taking a course at UCLouvain which is offered by the faculty to a wider, international audience, as well as to its own students.

The list of courses offered in this way can be found on the <https://www.uclouvain.be/fr/facultes/fial/je-fais-une-mobilite-courte> page.

Students can add these courses to their curriculum throughout the academic year, within the limits set out in the regulations.

Supplementary classes

To access this Master, students must have a good command of certain subjects. If this is not the case, in the first annual block of their Masters programme, students must take supplementary classes chosen by the faculty to satisfy course prerequisites.

What is a preparatory module?

It is a set of supplementary classes (courses, practical works, seminars, etc.) from the first cycle (see the non-exhaustive list below). The complementary module (maximum 60 credits) is tailor-made by the jury according to the student's educational background and added to the Master's programme in order to acquire fundamental knowledge to then pursue the 120 credits of the Master's programme.

The preparatory module linked to the [Master \[120\] in Performing Arts](#) has a double objective: on the one hand, it aims to provide students with knowledge relating to the history of culture (philosophy, sociology, literature, theatre, arts); on the other hand, it offers an initiation to the specificity of academic discourse and methodology. The acquisition of this knowledge and know-how will enable students to follow the master's courses with success. This is why the students concerned by this complementary module will follow the courses of this module from the first year of the Master's programme: the jury will offer them a tailor-made timetable without time conflicts combining these courses with some of the Master's courses. Students will have the possibility to call upon the faculty's pedagogical advisors to help them acquire these courses from different undergraduate programmes.

Course prerequisites

The **table** below lists the activities (course units, or CUs) for which there are one or more prerequisites within the programme, i.e. the programme CU for which the learning outcomes must be certified and the corresponding credits awarded by the jury before registering for that CU.

These activities are also identified **in the detailed programme**: their title is followed by a yellow square.

Prerequisites and student's annual programme

As the prerequisite is for CU registration purposes only, there are no prerequisites within a programme year. Prerequisites are defined between CUs of different years and therefore influence the order in which the student will be able to register for the programme's CUs.

In addition, when the jury validates a student's individual programme at the beginning of the year, it ensures its coherence, meaning that it may:

- require the student to combine registration in two separate CUs which it considers necessary from a pedagogical point of view.
- transform a prerequisite into a corequisite if the student is in the final year of a degree course.

For more information, please consult the [Academic Regulations and Procedures](#).

Prerequisites list

The programme's courses and learning outcomes

For each UCLouvain training programme, a [reference framework of learning outcomes](#) specifies the skills expected of every graduate on completion of the programme. Course unit descriptions specify targeted learning outcomes, as well as the unit's contribution to reference framework of learning outcomes.

THEA2M - Information

Access Requirements

Master course admission requirements are defined by the French Community of Belgium Decree of 7 November 2013 defining the higher education landscape and the academic organisation of courses.

General and specific admission requirements for this programme must be satisfied at the time of enrolling at the university.

Unless explicitly mentioned, the bachelor's, master's and licentiate degrees listed in this table or on this page are to be understood as those issued by an institution of the French, Flemish or German-speaking Community, or by the Royal Military Academy.

In the event of the divergence between the different linguistic versions of the present conditions, the French version shall prevail.

SUMMARY

Specific access requirements

1° Students must hold a university degree or a higher education degree. Failing that, students must provide proof of significant personal and/or professional experience related to the performing arts (consult [Validation of learning from experience](#)).

2° Candidates who do not have a higher education diploma from the French Community of Belgium (or from a country where French is the only official language) must provide proof of sufficient mastery of the French language at level **C1** of the [Common European Framework of Reference](#).

The official language level certificate must be issued by an organization recognized as a full member by ALTE (see <https://alte.org/Our-Full-Members>).

Examples of tests recognized by the jury for French: [DALF](#) or [TCF](#).

All skills must have been assessed and passed (written and oral comprehension, written and oral production).

In the absence of an official attestation issued by an organization recognized as a full member by ALTE (see <https://alte.org/Our-Full-Members>), a certificate from the University justifying teaching in French may be accepted. The jury reserves the right to request an official certificate issued by a recognized organization if it deems this necessary.

3° Have a minimum of 30 credits in philosophy, literature, arts, humanities and social sciences. The 30 credits of the #prog:title:min-lucr100i# are eligible to meet these requirements.

And/or report on practical experience in the performing arts acquired prior to entering the master's programme. Theatre courses, internships and workshops taken in academies, schools or universities are non-exhaustive examples of such experience.

In the absence of sufficient training in one or more of these subjects, supplementary classes will be integrated into the Master's programme (from 15 credits to a maximum of 60 credits). This [preparatory module](#) is established by the jury (small panel) on the basis of the student's educational background.

Access based on validation of professional experience

It is possible, under certain conditions, to use one's personal and professional experience to enter a university course without having the required qualifications. However, validation of prior experience does not automatically apply to all courses. Find out more about [Validation of priori experience](#).

Candidates who do not fulfil the abovementioned admission requirements, but who have duly attested significant experience relevant to the field of study in question, may apply for admission to the programme on the basis of an individualised admission procedure.

For more information on the procedure for admission by validation of learning from experience (VAE) in the Faculty of Philosophy, Arts and Letters: <https://uclouvain.be/fr/facultes/fial/valorisation-des-acquis-de-l-experience-vae.html>.

Admission on the basis of validation of learning from experience (VAE) may, in the case of training or experience judged to be valuable but insufficient by the select committee, involve the addition of supplementary classes (from 15 credits to a maximum of 60 credits) integrated into the Master's programme.

Opening to adults taking up their university training

The [Centre d'études théâtrales](#) from UCLouvain (CET) promotes the presence of adults alongside young students. To enable them to follow their studies while working, most courses are grouped together on certain days of the week.

Students who can prove they have a professional occupation can request (before 15th October) a reduction ([allègement](#)) in their annual programme and, therefore, be authorised to spread the credits of their Master's programme over three or four academic years.

Access based on application

Access based on application : access may be granted either directly or on the condition of completing additional courses of a maximum of 60 ECTS credits, or refused.

Admissibility criteria

A candidate's application will be deemed admissible if it meets all of the following criteria:

- Candidate's diploma issued by an **institution recognized by WHED** (see <https://www.whed.net/home.php>)
- Previous course of study including **at least 3 years of higher education** (equivalent to 180 ECTS credits), leading to an undergraduate degree; obtained in a maximum of 5 years.
- For holders of a **diploma obtained outside Belgium, an overall average of at least 60%** (12/20) for the course of study completed in the home institution and giving access to this program;
- For holders of a **diploma obtained outside the French-speaking Community of Belgium, official attestation of proficiency in the language(s)** at the required level (see specific admission conditions), to be attached to the application file. The official attestation must be issued by an organization recognized as a full member by ALTE (see <https://alte.org/Our-Full-Members>).
- A **detailed resume** outlining your educational background and potential professional experience.

A personal and **original cover letter**. An original cover letter is expected, explaining your personal training goals.

If a document is missing from the online application, it must be justified (see [UCLouvain Enrolment Department's frequently asked questions](#), in particular "[What do I do if my online application asks for a document I don't yet have?](#)")

Applications deemed admissible are forwarded to the Faculty by Enrolment Services. Applications that do not meet these criteria are automatically rejected.

Eligibility criteria

Applications submitted to the Faculty by UCLouvain's Enrolment Department are examined by the program's jury in accordance with the specific conditions of access detailed above.

The jury decides on the admissibility of candidates on the basis of the information contained in their application file, the quality of the training they have undergone and the results they have obtained.

When examining the application, the jury will pay particular attention to the following points:

- **Consistency** between the candidate's previous academic career and the prerequisites for the targeted program. The match between the candidate's academic background and the UCLouvain bachelor's degree giving direct access to the master's program need not be perfect, but the skills acquired (see specific access conditions) must be close. Example: for an application for admission to a master's program in modern languages and literature, the candidate's previous training includes courses in languages and literature in both modern languages.

- **Arguments** expressed in the cover letter, particularly the consistency between the candidate's personal and professional goals and the program in question. The letter should explain why the candidate wishes to enroll in this program and specify how the master's degree fits into the candidate's personal and professional goals.
- **Grades** obtained in the program's major disciplines (courses for the access diploma deemed equivalent by the jury to the compulsory courses of the UCLouvain bachelor's program giving direct access to the targeted master's degree) (see specific entry requirements);
- **Experience gained.** If the qualifying diploma was obtained more than 5 years prior to the submission of the application for admission, it is imperative that the experience acquired since leaving school is directly related to the field of study of the programme applied for.

Admission and Enrolment Procedures for general registration

Teaching method

The aim of this training programme is not to cover all the possible theories and areas of the performing arts, but to provide students with a method of working and research tools to acquire new knowledge and critical concepts, especially in the field of theatre, in a personal way and in the light of their previous experience (students, arts professionals, psychotherapists, teachers, etc.). The theatre is considered from a multidisciplinary perspective, through dramatic art, sociology, history of the theatre, aesthetics, scenography, law, management, history of production, reviews of shows etc. Students are required to undertake research and personal work, pass on new knowledge to others and share their results.

The scope of this programme is essentially theoretical since it promotes dialogue with theatre practice, allowing students to gain practice in writing drama, production and stage management.

Contact with and immersion in theatrical life takes place throughout the course, through work placements in theatrical institutions, as assistants in production, on reading panels, in translating or adapting pieces for the theatre, in management, in technical management or in managing actors and so on. Not only does this provide students with hands-on experience but is also a way of entering the profession.

Evaluation

The evaluation methods comply with the [Academic regulations and procedures](#). More detailed explanation of the modalities specific to each learning unit are available on their description sheets under the heading “Learning outcomes evaluation method”.

Depending on the type of teaching and the course, assessment may be different.

- Certain **courses** have traditional oral and/or written assessments (these take place during one of the 3 examination periods : January - June - August/September), whereas the assessment of seminars or research requires a greater degree of involvement from students and the assessment of personal work. The assessment methods to be used will be made clear at the beginning of each course.
- For **work placements**, assessment is done on a written folder which students must give to their placement director at the oral examination. There is also continuous assessment undertaken by the placement director.

To obtain a student's average, the grades awarded for each course unit are weighted by their respective credits.

Mobility and/or Internationalisation outlook

Internationalisation is at the heart of this programme through the collaboration of international professors and students from many different countries. Such diversity is an integral source of enrichment and vitality.

Students pursuing a [Master \[120\] in Performing Arts](#) are encouraged, as part of their studies, to undertake:

- **a study visit for one term** (30 credits) in [one of the universities in Europe or in Flanders](#) with which the Programme Committee in Performing Arts has concluded partnership agreements, through the Erasmus+ and the Erasmus Belgica programmes and/or
- **an internship in Belgium or abroad**

It is advisable to organise the study visit during the second term of the first year or the first term of the second year.
