# Students with a specific profile

## PEPS programme

UCLouvain aspires to be accessible to everyone, which is why a special status exists for students with a specific profile: PEPS (the French acronym for "Programme for students with a specific profile").

This status allows students who have particular requirements to make arrangements that

enable them to pursue a university course. PEPS aims to support and encourage such students in an equitable manner and to ensure that they are identified and can thus benefit from discussion with their faculties based on this recognition by the university.

## Four categories of students are currently covered by this status:

### 1. PEPS INCLUSIF (PEPS'In) ("INCLUSIVE PEPS")

#### Persons with a disability, disorder or illness

**PEPS'In** is a support service for UCLouvain students with a disability, learning disability, disorder or illness. It is subject to the decrees on inclusive higher education.

The PEPS'In team is committed to supporting you academically and socially, as well as in your daily life and housing, so that you can study in the best possible conditions.

# Student activities and representation

## Student representation

These student representative bodies defend your interests and rights within the university.

### At UCLouvain level: AGL

"Defend, inform, support, represent" is the mission of the Louvain Student General Assembly (AGL), composed of elected students who, within official university bodies, represent all UCLouvain students. The AGL works to address student precarity, make education more accessible, make student voices heard on the university's ecological transition, establish concrete initiatives, and raise awareness of difficulties encountered by students.

**And at the national level?** The AGL is affiliated with the Federation of Francophone Students (FEF), which ensures representation at the level of the Wallonia-Brussels Federation.

► *BDE list and contacts*

### At faculty level: BDEs

A Student Bureau (BDE) defends the interests of students in a given faculty. Its delegates are the liaisons between you and your classmates, professors, faculty and other academic staff, and administrative staff. They are elected in each class at the beginning of the year.

### Mons: Student Council

The UCLouvain FUCaM Mons Student Council is the representative body of campus students.

## Kots-à-projet

A kot-à-projet (KAP) is theme-based accommodation where eight to 12 students, in addition to living together in a shared flat ("kot"), carry out a project that is close to their hearts. There's a theme for everyone: social issues, ecological transition, disability awareness, sports, arts and culture, technology, student support, and more.

### Organe (KAP Association)

Organe is the representative body of all of UCLouvain's KAPs, which supports their operations and represents them vis-à-vis the university and its authorities. The Association also performs outreach to residents, other students and the outside world. To achieve these objectives, the Association's members establish services for KAPs, sit on several committees, and organise events.

## Folklore

When you think “student activities”, think folklore also. At UCLouvain, two types of groups bring it to life:

### Regional associations (“régio”)

At UCLouvain, 17 regional associations allow students from the same geographical region to meet and share their folklore with other students through the organisation of all kinds of activities (tastings, banquets, exhibitions, visits, etc.).

The UCLouvain Federation of Walloon Regional Associations (**Fédé**) federates the 17 regions. Like the AGL, the GCL and the KAP Association, Fédé is one of the decision-making bodies within UCLouvain. In addition to the day-to-day management of the Petite Casa (a for-rent entertainment room), the Fédé is responsible for the Parking Fédé (car park) during Louvain-la-Neuve’s 24 hours of cycling (“24h vélo”), the Louvain-la-Neuve Carnival and Fédé Week.

### Clubs (“cercles”)

UCLouvain campuses are home to fourteen clubs (“cercles”). They bring together students in the same faculty.

The Groupement des cercles louvanistes (**GCL**, “Louvain Clubs Group”) represents all UCLouvain student clubs and helps them in their daily management. It also acts as an intermediary with the university authorities by participating in various committees and decision-making bodies as well as in the Student and Social Affairs Council (CASE). The GCL manages the Grande Casa activity hall.

23 thematic clubs also enable students to express themselves freely and rally around causes and values close to their hearts.

### “Baptisms” and “bleusailles”

Would you like to meet new people and be “baptised” in a club or regio? Don’t hesitate to take part in the welcome activities organised at the beginning of the year to ask all your questions to your future godparents! Baptism and bluesailles are governed by a strict protocol drawn up by the Vice-Rector for Student Affairs (see p. 46). Here are a few rules: it’s possible to stop at any time, alcohol consumption is not compulsory during the activities, those in charge as well as the baptized person are sober during the baptism, the activities take place outside class hours and under no circumstances can the physical, moral or psychological health of the participants be harmed. Student activity leaders are trained by health, safety and prevention professionals to ensure optimal supervision of activities.

## Become an ambassador of sustainable development

Meet other students and participate in projects on responsible AI, sustainable mobility, or waste sorting Interested? Send an email to:

**[isaline.dumont@uclouvain.be](mailto:isaline.dumont@uclouvain.be)**

## Join a dedicated group

### KAPS

In Louvain-la-Neuve, some 100 students are involved in a dozen kots-à-projet (KAPs, theme-based shared student accommodation) focused on the ecological transition. They convene on the **KAP in Transition Platform** and organise the annual KAP Transition Festival.

**f** [PlateformeTransition](#)

In Brussels Woluwe, **Kaptain Planète** aims to help people discover the benefits of ecology in a fun and original way.

### AGL

The Louvain Student General Assembly (AGL) (see p. 32) is committed to addressing climate change. It supports emerging ecological transition initiatives with logistical and financial aid and makes its networks and skills available to student project leaders. In Brussels Woluwe, AGL students committed to the climate and ecological transition have formed the **Green Team**.
